

**Tata Ace Gold Petrol CX**

Tata Motors, India's largest commercial vehicle manufacturer, today launched an all-new variant of its most popular small commercial vehicle (SCV), the Ace Gold Petrol CX Cab Chassis at Rs. 3.99 lakh. The Tata Ace Gold Petrol CX Cab Chassis variant is the only four-wheel SCV powered by a 2-cylinder engine with a gross vehicle weight of more than 1.5 tonne, and available below the Rs. 4 lakh price point. Its low price point, coupled with easy financing options, make it a great choice for first-time commercial vehicle users, and 3 wheeler users to upgrade in both rural and urban areas. For further ease of buying and increased accessibility, Tata Motors has partnered with State Bank of India to make its customers avail of a never-before offer with lowest EMI of Rs. 7,500^ and up to 90% on-road finance.

**USPs:**

- Lowest acquisition cost in the 4W Cargo segment
- Power packed engine, delivering 18.4 Kw (25HP) power and 55Nm torque
- Gear Shift Advisor and Eco Switch for high fuel efficiency
- Digital Display Cluster
- Warranty of 2 years / 72000 Kms for peace of mind

The new Tata Ace Gold Petrol CX Cab Chassis promises to be at the forefront of last-mile delivery because of its versatility across applications, which include market logistics, distribution of fruits, vegetables, and Agri products, beverages & bottles, FMCG and FMCD goods, e-commerce, parcel & courier, furniture, packed LPG cylinders, dairy, pharma and food products, refrigerated transport, as well as waste management applications. The Tata Ace Gold Petrol CX Cab Chassis is poised to ensure a sustainable and profitable last-mile distribution, in the Indian trucking space and generate millions of success stories for years to come.
