

Reclaim your life with the all new SAFARI

The new Safari further builds on the legacy of prestige and outstanding performance by combining Tata Motors' Impact 2.0 design language with the proven capability of OMEGARAC, an architecture derived from the renowned D8 platform from Land Rover, which in itself is the gold standard of SUVs worldwide.

As the flagship SUV from Tata Motors, Safari has evolved to satisfy the new age SUV customers and promises to set new benchmarks for SUVs in India. It will further take the legacy of Safari forward by building on its pedigree - dominating SUV stance, spacious, comfortable & plush interiors, spirited performance and robust built.

The new Safari, available in 6 and 7 seater options, offers a versatile performance with its Kryotec 2L Turbocharged 170PS Diesel Engine, segment leading ride and handling, plush and premium spacious interiors and top- of- the- line safety, technology and connectivity features.

Arresting Design
